MONITUM.

Quæ de ORBE VETERIBUS NOTO Mappa Geographicæ hactenus prodierant,
non EUROPAM modò universam, sed et ASIAM totam et AFRICAM exhibent,
quò patent Recentioribus. In recentibus etiam designandis, circa fines Asiaticos præsertim,
et insulas his finibus adjacentes, multum ultra veros ANTIQUI ORBIS limites progressum est.

Quod ut Mappa hæc nostra hodiernam amplectentur trium Orbis partium amplitudinem,
intra spatium nudis angustiis coarctata veteris Geographiæ Continens,
ne nimis exilem, et in propriis rebus egenam ostenderet,
quàm timeri de eâ præcipue opus fuerit institutum.

Quantum verò discrimen sit inter Geographiam veteram et novam facile erit æstimare,
si Mappa quæ oculis subjicitur, cum aliis Orbis partium tabulis conferatur.

Quibus autem fulciatur argumentis nostra de ANTIQUI ORBIS limitibus sententia,
docebunt variæ eò dirigendæ disquisitiones,
quas regiæ Humaniorum Literarum Academiæ Commentariis commissas,
sub prelo sudabunt, in lucem prodituras.
